DESCRIPTION | REVIEWS (0) | SIZE GUIDE

Maximize your inventory efficiency and capitalize on the K-fashion trend with this wholesale starter bundle of 'alo' Premium Korean Wide-Leg Pajama Pants. This master case includes seven units, providing one unit of every color in our current collection, allowing you to test the full range with minimal investment.

Engineered with a true Korean "relax-fit" aesthetic, these pants are sourced from premium, authentic imported Korean lounge fabric. This weave offers an exceptionally soft hand-feel that customers love, combined with the durability required for repeat wears and washes.

The primary logistical advantage for your retail operation is our optimized 'Free Size' engineering. These pants are designed with a generous wide-leg drape and a robust elasticated drawstring waistband that comfortably accommodates bodies from size Medium up to Double-Extra-Large (2XL). This dramatically reduces your SKU complexity and storage requirements while maximizing your addressable customer base.

Finished with essential dual side pockets (a highly requested feature), these pants offer high perceived value. They are an essential addition to any boutique focusing on loungewear, sleepwear, or premium comfort apparel.
